MANSOUR AL-HUMAYDANI

Rig Safety Coach | HSE / QHSE Professional | Offshore Drilling

Unaizah, Al-Qassim, Saudi Arabia | +966 53 750 6619 | mansoor.dd@gmail.com | linkedin.com/in/mansour-alhumaydani

PROFESSIONAL SUMMARY

Rig Safety Coach at ARO Drilling with the company since 2019: three years in drilling operations followed by HSE coaching on offshore drilling rigs under Saudi Aramco standards since 2022. TapRooT® Advanced Root Cause Analysis Team Leader who has led 15+ incident investigations, reviewed and rewritten 130+ rig-specific operating procedures (RSOPs) and delivered HSE inductions to 90+ personnel. Qualified through the OTHM Level 6 Diploma in Occupational Health and Safety, NEBOSH IGC, NEBOSH Health and Safety Leadership Excellence, the CQI-IRCA certified ISO 45001 Lead Auditor course and CQI Practitioner (PCQI). Focused on Control of Work, behavior-based safety and stopping repeat incidents at the root.

CORE SKILLS

Incident Investigation | Root Cause Analysis (TapRooT®) | Corrective and Preventive Action (CAPA) | Control of Work (PTW, LOTO, Confined Space Entry, Work at Height) | Job Risk Analysis (JRA) / Job Safety Analysis | Behavior Based Safety (BBS / SOAR) | HSE Audits and Inspections | Saudi Aramco GI and RHSEI Requirements | ISO 45001:2018 | API RP 75 (SEMS) | Quality Management (CQI) | HSE Training and Inductions | Short Service Employee (SSE) Program | Safety Leadership and Coaching | RSOP Review and Document Control | Gas Testing | Offshore Drilling Operations | Microsoft Office

PROFESSIONAL EXPERIENCE

Rig Safety Coach 12/2022 – Present

ARO Drilling – Offshore Drilling, Dhahran, Eastern Province, Saudi Arabia

- Led 15+ incident investigations using TapRooT® Root Cause Analysis, from evidence collection to corrective actions.
- Reviewed, corrected and rewrote 130+ rig-specific operating procedures (RSOPs) and tracked their upload to the Electronic Rig Library (ERL).
- Delivered HSE inductions and orientation to 90+ personnel arriving at the installation.
- Audit Control of Work documentation daily (PTW, LOTO, CSE, W@H) and coach crews one-on-one and in groups on the gaps found.
- Perform ARO rig-specific HSE audits and Saudi Aramco RHSEI audits; report concerns and trends to rig management.
- Run the Behavior Based Safety program (SOAR cards), monitor its effectiveness and follow up every high-potential unsafe act or condition.
- Facilitate the Job Risk Analysis (JRA) process and act as HSE SME in pre-job planning for high-exposure operations.
- Coach and mentor crew members on ARO and Saudi Aramco HSE policies and procedures; communicate safety alerts to all crews.
- Plan and facilitate weekly HSE meetings, lead the safety committee and attend pre-tour safety meetings.
- Monitor the Short Service Employee (SSE) program and ensure incidents are reported correctly and on time.
- Prepare and deliver rig-based HSE training and keep training material current with industry best practices.

Drilling Operations Team 2019 – 11/2022

ARO Drilling – Offshore Drilling, Saudi Arabia

- Worked in the drilling operations team on offshore rigs, supporting day-to-day rig operations under Saudi Aramco and ARO procedures.
- Built hands-on drill floor experience that now underpins practical, credible safety coaching for drilling crews.

CERTIFICATIONS

- TapRooT® Advanced Root Cause Analysis Team Leader – System Improvements, Inc. (02/2026)
